**APRIL FOOLS!**

Happy April, Everyone! I hope you are having a great start to the fourth month of our calendar year!

Did you know that this year, April Fools’ Day falls on the same day as Easter Sunday? I’m not sure whether to think that’s funny or ironic, or some other word I haven’t come up with yet, but in the spirit of this occasion, I wanted to provide us all with some history of the lesser celebrated, but equally memorable, holiday. According to History.com, April Fools’ Day dates as far back as 1582 when the French switched from the Julian calendar to the Gregorian calendar. This switch caused the start of our new calendar year to move from the last week of March to the beginning of January. Those who failed to realize the switch had happened were often made fun of and became the subject of hoaxes and practical jokes including, but not limited to, having paper fish placed on their backs. Anyone who had a paper fish on his or her back was now known as a gullible person or someone who was easily caught.

In the 18th Century, April Fools’ Day spread throughout Britain and Scotland, where the holiday became a two-day event in which people where sent on phony errands known as “hunting the gowk” (Think “wild goose chase”) These days though, April Fools’ jokes have become much cleverer, even to the point where newspapers publish satirical articles about fantastical happenings.

After learning all of this, I’m inclined to believe that having April Fools’ Day share a day with Easter might just be the Universe’s way of reminding us all to have a little more fun. As we continue to honor our personal belief systems, and reflect upon our rituals, we must remember that playfulness is what brings us together, what lessens the divisions between us. Our rituals do not have to be our divisions, but rather they can be our entry points to understanding. April Fools’ Day teaches us that a well-placed joke can help us laugh with each other instead of at each other. Laughter is the best medicine, after all.

GOOD ADVICE FROM OUR TENANT SERVICES COORDINATOR / SOCIAL WORKER, KETTLY GILLES

Four Seasonal Allergy Tips

Take Daily Medicine
If you are a seasonal allergy sufferer, start off every morning by taking an over-the-counter daily allergy pill. If you need stronger medication, please consult your doctor or allergist.

Track Pollen Levels
Some days are worse than others for seasonal allergy sufferers. Stay one step ahead by tracking the pollen levels in the air. There are plenty of apps you can download to get day-to-day pollen levels. Determine how much time you should spend outside by how the levels look each day.

Keep Windows Closed
As the weather gets warmer, it’s tempting to open the windows to let the fresh air in, but doing so will also let the pollen in. Keep your windows closed especially on days with high pollen count to ensure your home is a safe haven from allergies.

Keep a Clean House
Allergens will find their way into your house, whether it’s from attaching themselves to your clothes and pets, or coming in from open windows and doors. Keeping a consistent cleaning schedule and washing your sheets and curtains regularly will help keep allergens in check at home.

Please continue to schedule your appointment at the office. Thank you for your cooperation.

YOU ARE STRONGER THAN STRESS!

It’s true that stress seems all-powerful. But it can only take over if you let it! In fact, stress needs your permission to rattle your peace of mind and leave you frazzled. Remember: just because stress demands your attention doesn’t mean it deserves you. Your happiness does!

SMILE AWHILE..........TAX DAY STYLE!

A little boy wanted $100 badly and prayed for two weeks but nothing happened. Then he decided to write a letter to Santa requesting the $100. When the postal authorities received the letter addressed to Santa, they decided to send it to the President of the USA. The President was so impressed, touched, and amused that he instructed his secretary to send the little boy a $5.00 bill, as this would appear to be a lot of money to a little boy. The little boy was delighted with the $5.00, and sat down to write a thank-you note to Santa. It said: Dear Santa, Thank you very much for sending me the money. However, I noticed that for some reason you had to send it through Washington, DC and as usual, those jerks deducted $95 for taxes!

BEWARE.....MEDICARE SCAM

THE FACTS

Starting April 18th, Medicare will start a year-long project to replace all current Medicare cards for beneficiaries to convert to alphanumeric ID numbers. Currently, the ID number is your social security number. New Medicare cards without Social Security numbers are being distributed from April 2018 to April 2019. The new Medicare card will come to you in the mail. You don’t need to request it or do anything. It will just show up. Your existing card is good until the new one shows up.

THE SCAM

Somebody from “MEDICARE” will call to tell you that you are getting a new Medicare card. But until it comes, you will need a temporary card. Fee for the card is between $5-50 dollars. They want personal information, bank account or credit card so they can process your temporary card.

THINGS TO REMEMBER

Medicare will never call you unless you ask them to. Medicare does all communications by mail unless you ask them to call.

DO NOT give out information over the phone.

Spread the word. Feel free to share these notes.

Use your answering machine to screen calls or just don’t even answer a number you don’t recognize.

If it has happened to you or your friends or loved ones and personal information has been given out (happens more often than you think so, don’t feel bad or stupid) immediately take action to protect yourself against identity theft.

Sincerely

DONNA BRIGHTMAN
